

Made from the right crude

More than forty years' experience has taught us which crudes make high-grade efficient lubricants. None but the most suitable are chosen for the manufacture of Zerolene. The fact that Zerolene has made good in actual service, and in all sizes and types of motors, proves that it is made of the right crude, and made right.

GRAND JURY CHARGED BY THE JUDGE, BONDESSON, FOREMAN

(Continued from Page One.)

you, or whose depositions may have been read before you, must be inserted at the foot of the indictment, or indorsed thereon before it is presented to the court.

The grand jury must inquire into the case of every person imprisoned in the jail of the county on a criminal charge and not bound over to you, or not informed against by the county attorney; and into the corrupt misconduct in office of public officers of every description within the county. You are entitled to free access, at all reasonable times, to the public prisons, and to examination, without charge, of all public records within the county. It is not the province of the grand jury, however, to expert the records of

the county officials. This matter has been fully provided for by the legislative creation of the office of the state examiner.

The court specially gives you in charge the investigation of all public offenses against the stock raisers of the county and all violations of the laws of the state governing the branding, sale, purchase and slaughter of all live stock within Yuma county; always bearing in mind the instructions heretofore given you, as to the kind of evidence you should receive before finding an indictment. Under the rules and instructions which I have given you will now proceed to the discharge of your duties.

In open court, June 3, 1915.
FRANK BAXTER,
Superior Judge.

GOVERNOR OF SONORA BOOSTS HOME PRODUCT

Thirsty Arizonans who made a pilgrimage to Naco in hopes of allaying the burning feeling in their throats brought on by five months of drought, will either have to pay fabulous prices or be satisfied with the product of the Hermosillo brewery, according to Tax Commissioners Howe and Campbell, who have just returned from a visit to Cochise county points. Governor Maytorena, they state, recently raised the duty on American liquors \$10 a barrel, making the total \$23. In consequence American beer is being sold in Naco, Sonora at one dollar a quart, or three times the price of the Mexican product. Furthermore denizens of the border town who occasionally step across the line for a little diversion and refreshment, avow that the American beer is no better than that turned out by the industry which the governor of the province is so industriously protecting against competition.

People in touch with the situation state that the time is not far off when American whiskies and other liquors will be entirely barred from Naco, and the Hermosillo brewery, which is apparently subsidizing the government, will enjoy unmitigated prosperity.

BILIOUS ATTACKS

When you have a bilious attack, your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They will only cost a quarter. For sale by all dealers.

Representative Edwards, of Yuma, yesterday introduced a prohibition enforcement bill in the legislature.

Doctor R. R. Knotts, of Yuma, was elected vice-president of the Arizona Elks re-union association at Tucson.

Bulgaria and Roumania entered the European war yesterday, the latter against Turkey and the former against Austria.

TWO MORE HANGINGS ARE SET FOR FRIDAY

The Arizona Republican says: It is asked whether there will be another attempt at hanging at the state prison tomorrow. Two convicts have been sentenced to die at that time. They are Ben Merriwether and Charles Dingley, colored troopers, convicted in Cochise county of murder near Douglas in the latter part of last November. They murdered the driver of an automobile one night and left no clue. Not long after they attempted a similar crime and when they were arrested they confessed to the former crime; that is, each admitted that the other had committed the outrage.

It was stated the other day after reprieves had been granted the Mexicans sentenced to be hanged last Friday, that in the cases of the negroes appeals had been taken from the lower court of Cochise county to the supreme court and that thereby the execution of the men had been stayed. But inquiry at the supreme court yesterday brought out the statement that the appeals had not reached that court and nothing was known there about an intention to appeal.

REPORTS AMERICANS KILLED NEAR TAMPICO

HOUSTON, June 3.—Captain Lane of the steamer Winifred, which docked here, said he knew that six Americans were killed near Tampico the last few days. Four were assassinated from the river bank while in boats, and two were shot at the pumping plant. John Smith, an engineer was assassinated in a row boat on Sunday. He said he feared a general uprising and massacre of Americans in and near the Panuco oil fields.

Captain Lane said he understood the American consul at Tampico had all the facts regarding the various assassinations and that full details will be sent to Washington. The oil fields located 20 miles up the river from Tampico are under the control of the Villa forces and Tampico is controlled by Carranza. Officers of the six oil companies operating in the Panuco fields denied knowledge that any of their men had been killed.

AN AMERICAN KILLED BY VILLA'S TROOPERS

WASHINGTON, D. C. June 3.—J. W. Bennett, an American, was killed while riding in a launch with Carranza soldiers south of Panuco, when Villa troopers fired, according to a dispatch from Tampico dated on May 27, and made public today.
